## SAFETY EQUIPMENT

Hole Products offers a complete line of safety equipment to keep job sites free from injury.

From gloves and safety glasses to hard hats and hearing protection, we have the safety equipment drilling contractors need to stay in compliance, and make sure all employees go home safely.

Please contact your Hole Products representative for product specific information and the availability of additional safety equipment needed for your next drilling project.

*Products listed in the catalog are representative of the most common industry sizes and styles.  
Please contact your Hole Products representative for additional product offerings.*

# HEAD PROTECTION

Hard hats dissipate the force of an impact from an object by spreading it over a greater area. Hole Products' hard hats feature load bearing points which help to stabilize and balance the hat during everyday wear. Hard hat shades, which attach easily to hats, are also available to shield outdoor workers from the sun.

Additional sizes, styles, and colors are available on request.

HEAD PROTECTION		
	PART #	DESCRIPTION
